“NDP’d” in Saskatchewan

Lorne Calvert promotes Saskatchewan as the land of opportunity. He advertised throughout Alberta, encouraging Albertan's who could no longer afford their cost of living, to come to Saskatchewan where life was much more affordable. His main theme throughout has been the low cost of housing. Lorne promoted Saskatchewan as the province where everyone could afford to live. It worked and Saskatchewan has seen an overwhelming amount of people flock here from Alberta. We at **iZon injustice**, welcome them. Lorne Calvert was right; Saskatchewan is a land of many opportunities. It has always been a land of opportunity! Saskatchewan has much to offer those who can afford to tap into its wealth. For those who can't, Lorne Calvert has left no place for you!

Photo by Angie Geworsky, taken on the Broadway Bridge in Saskatoon, SK Oct. 10, 2007.

These two homeless people and their three dogs were sleeping sound at 9:30 am Wednesday morning October 10th, 2007. They did not budge as the morning traffic of downtown workers walked by on their way to work. They were still there by 11:00 am. The overnight temperature was + 2 degrees Celsius.

The NDP have consistently **NOT CARED** about justice in the province of Saskatchewan. They have caused a lot of damage, to a lot of people. If you've had enough of the NDP, HONK your horn when you meet an NDP party member on the street and let them know how fed up you are. On November 7, 2007 please get out and vote, its time this government gets the message!

In the meantime injusticebusters will continue driving around Saskatoon displaying “**HONK if you're fed up with the NDP**” on a green half-ton. If you happen to see it, and are fed up with the NDP, honk your horn in support.
